

Medical & Biotechnology Manufacturing

News

Medbio hosted the monthly [MiDevice](#) consortium meeting last month, with 15 member organizations in attendance. [MiDevice](#) is a Michigan-based organization dedicated to medical device design, development, manufacturing, and distribution. The Consortium works to speed the growth and development of medical devices by emphasizing and encouraging collaboration among members to meet overall product lifecycle and supply chain needs.

Join more than 3,000 business leaders, entrepreneurs, manufacturers, and suppliers, gathered under one roof to share solutions and gain valuable insights.

Packaging Capabilities Expanded

[Medbio's](#) new automated tote-filling system is now fully operational. Our new portable packaging cell was delivered earlier this month and is now supporting several high-volume projects. This system allows [Medbio](#) to better utilize labor by nearly eliminating the need for an operator. This not only saves our customers money, it also reduces the potential for human contact. Additionally, samples can be redirected at timed intervals for submission to our quality assurance department for subsequent testing. [Contact us](#) to discuss how we can help with your next molding project.

FREDERIK MEIJER Gardens & Sculpture Park

June 1 – September 1, 2016

The annual [Fifth Third Bank Summer Concerts at Meijer Gardens](#) continues to bring the finest national and international musicians to West Michigan, thrilling music lovers across all genres and all generations. The Summer Concert Series runs from June through September and features beautiful terraced lawn seating, food, beverage and merchandise concessions—surrounded by spectacular views of gardens and sculpture. This summer's lineup includes The Monkees, Of Monster and Men, The Decemberists, Ben Harper & The Innocent Criminals, and many more to be announced later this month.
