## About Us

Located in West Michigan, Medbio is an ISO 13485:2003 certified contract manufacturer offering innovative manufacturing solutions for the medical and biotechnology industries. We specialize in precision injection molding, assembly, packaging, project management, and design support.

Our facility contains a certified ISO Class 8 clean room for molding, along with several certified Class 7 clean rooms for assembly. We have flexible capacity to handle major projects or small custom orders.

A commitment to delivering quality service and value to every customer is a priority at Medbio. We've earned a reputation of excellence and strive to exceed those expectations.
